

ADDENDUM 2

The City of Lincoln Utility Rates for Wastewater, Solid Waste and Storm Water RFP 06152017

The following question was received last week and the answer below was sent out in Addendum 1.

- Q. We are looking at the City's proposal referenced above and have a question. Are you requiring that you must propose on all three studies, or could you, for example, just propose on the Wastewater study or Wastewater and Storm Water studies?
- A. **All three utilities must be part of the proposal.**

After further consideration, proposals will be accepted with one or more of the rate studies. All three utilities do not need to be part of the proposal. Consultants that propose all three rate studies will be given more consideration during the Evaluation and Review then consultants that submit proposals for one or two of the studies.

Thank you

John Lee
Purchasing Manager
City of Lincoln.
